

WHAT IS DIGITAL DIVIDE?

Unequal access to technology & internet

Broadband connectivity gaps between regions

Device ownership disparities

Internet speed variations (rural vs urban)

WHO IS AFFECTED?

Rural populations - no broadband coverage

Low-income families - can't afford devices

Elderly people (65+) - technology unfamiliar

Disabled individuals - accessibility barriers

IMPACTS

Limited education access - remote learning gaps

Job market exclusion - no online skills

Healthcare disparities - telehealth unavailable

Financial services access - banking online

KEY STATISTICS

2.3 million UK homes without broadband

15% UK population completely offline

Rural areas 50% slower speeds than cities

£200+ equipment cost barrier for families

SOLUTIONS

Government broadband scheme (Superfast)

Digital skills training programs

Free device distribution initiatives

Community Wi-Fi hubs in rural areas
